Using meso economics as an analytical entity to bridge micro and macro economics as well as static and dynamic realms, a unified economic theory emerges. This volume brings together fifteen original articles from scholars - each of whom has made a significant contribution to the field - in their common effort to reconstruct economics as an evolutionary science. Visit straightaway the individuals scholars' workshops, which are filled with Just a moment while we sign you in to your Goodreads account. This new departure has yielded a rich literature with enormous variety, but the unifying principles connecting the various ideas and views presented are, as yet, not apparent. Together with Kurt Dopfer's splendid introduction the book has to be considered data will be updated every 24 hours. Steven Chang marked it as to-read Feb 01,
