Banking Regulation and the Financial Crisis By Jin Cao This book is a review on the economic theories of systemic risks in the financial market and the topics in constructing the macroprudential framework for banking regulation in the future. Die Herren des Geldes: The financial crash of 2008 showed the fragility of the financial system.

At this juncture, we are at the last stage of future-proofing the financial system.

Edited by Leighton Vaughan Williams. Money and Payments in Theory and Practice By Sergio Rossi International in scope and written by a leading young Post-Keynesian economist, this book focuses on the working of money and payments in a multi-bank settlement system within which banks and non-bank financial institutions have been expanding their operations outside their countries of... Paperback – Routledge Routledge International Studies in Money and Banking. In recent years the most well-known nominal income targeting rule has been NGDP level Targeting, associated with a group of economists referred to as market monetarists Scott Sumner, David Beckworth, and Lars...

The credit crisis started with the failure of one large bank: In period t, the first change in the financial environment relates to the rise...
