I also must say that it is a good read no matter what your age if you like adventure, epic journeys, great characters, and just an all around fun read. There is some violence so I would recommend this to the mature middle grade reader, but overall an enjoyable read. I would recommend to anyone looking for an action and adventure packed journey to go on.

Followyourdreams,people! When he opens his eyes, it is to look into the eyes of angel, his savior Crystal. With the grown-ups too fearful to take My next series was much more difficult for me because it is a different genre fantasy and I have to create an entire world. You'vesuccessfullyreportedthisreview.I think the book would be a great read for middle aged readers, as it is easy to follow, understand, and has the action and adventure needed to make them want to continue the story to see if Stanley succeeds in his quest. I need a cold body to believe.
