Practical implementation issues

Computers and Writing Issues and Implementations Edited by Mike Sharples Springer-Science+Business Media, B.V. (1)
Computers and Writing Issues and.

ELIZA is an early natural language processing computer program created from 1966 to 1972. Weizenbaum solved these problems in his ELIZA program and made ELIZA such that it had no built in contextual . with future technologies and their relation to art, desired to explore the use of computers for writing literature.

frequently an issue and a barrier to widespread use by teachers for instruction . students use laptops primarily for writing, taking notes, completing homework.

However, in many cases, students were doing very little initial composition at computers. Rather, they were entering drafts that had initially been composed with.
