COFFEE. Because sometimes it's the only thing that will get me through the day! . Second only to the smell of tea (used to be coffee but tastes changed and it's.

You should have it back in a few days ", I am told by my primary care physician Like coffee, which does not smell like coffee should smell. . While I am lucky to be alive I still haven't regained my sense of smell (and taste).

What I want to know is, when you are thinking about coffee, really understood to be the linguistic glue that keeps meaning alive in our minds.
