BBC - Future - The myth behind long prison sentences

What happens when a person is arrested? Gain insight with "Understanding the Criminal Justice System".

Prisons are designed to house people who have broken the law and to remove them from free society. Inmates are locked away for a set period of time and have .

In a world where crimes are rapidly increasing, this European country will soon shut their prisons as a result of dropping the crime rates.

Does spending ' years' behind bars actually help deter crime? BBC Future explores the impact of long prison sentences, and looks at how.

Bostic was 16 when he committed the 17 crimes for which he was given Unless the court changes its mind, he will be in prison until January.

All of the latest research and evidence on drug-related interventions. Findings compiled by the Justice Policy Institute in found that sentencing times for the same crime wildly vary across the globe. What is BBC Future? EvidenceAllofthelatestresearchandevidenceondrug-relatedinterventi Today, the US leads the world with more than 2. This suggests these interventions may be worth considering, particularly in the context of extending services to address new or unmet needs, but should be evaluated. In turn, that led to unrest and fear among the population. Wecanaddresstheaddictionwithamoreevidence-basedapproach-onethatde treatment is also important in prison in reducing injecting risk behaviours. We provide information on the available evidence on drug-related prevention, treatment and harm reduction, focusing on the European context.
